

INTEGRAL BLINDS WITHIN DOUBLE GLAZED UNITS

Brendan **Weather**
Dillane **Master**
Est. 1996

Integral venetian blinds are made to fit neatly between 2 panes of glass, offering a contemporary look for Bifold and Sliding Patio Doors in a choice of 10 colours.

Raising and lowering of the blinds is controlled using either a cord system attached at the top by a strong magnet, a rotational knob or a rotational wand which is twisted to open and close or tilt the blinds.
