ingenuity meets engineering

SILKCERAMIC DOOR COLLECTION

Introducing a redefining new door collection by Silka. The organic ceramic patterns evoke the beauty of nature, while precision-engineered aluminium ensures unmatched strength and durability. Transforming an everyday element into a bold statement of style, Kärben is a reflection of your individuality, elevating your home with elegance and ingenuity. Every Kärben door blends innovative design with flawless craftsmanship, offering you a seamless fusion of art and function, crafted to inspire and endure. Kärben speaks volumes about your taste, even in silence.

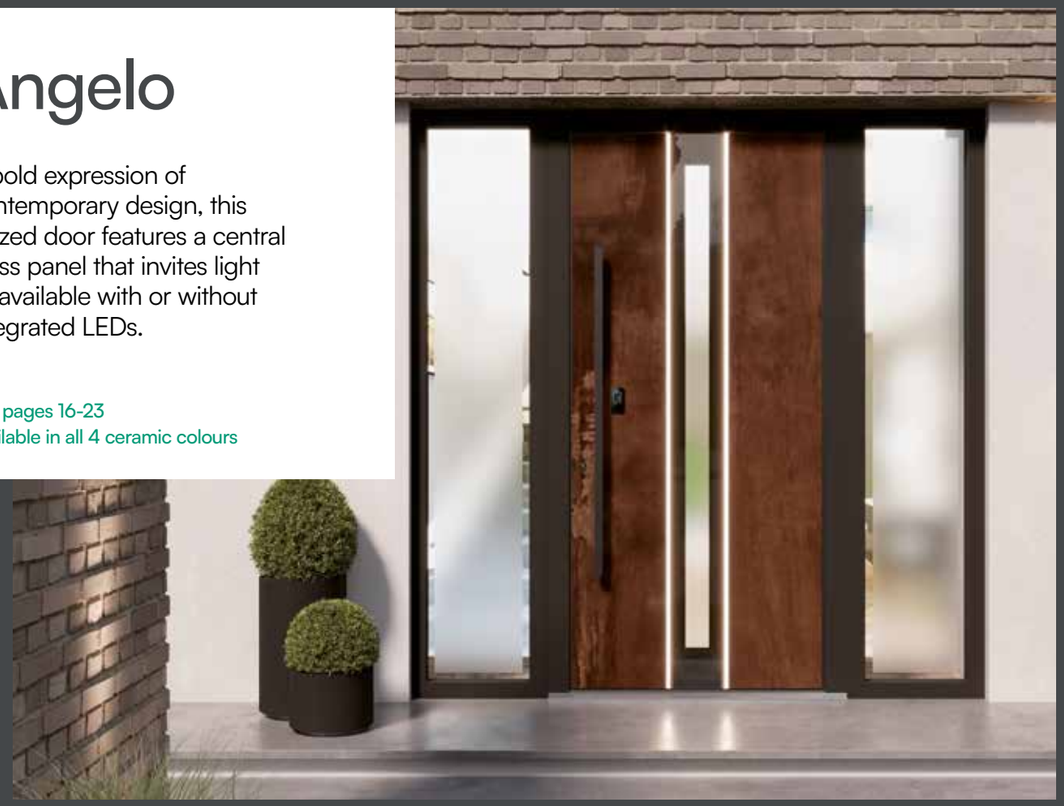
3 unique door styles to choose from

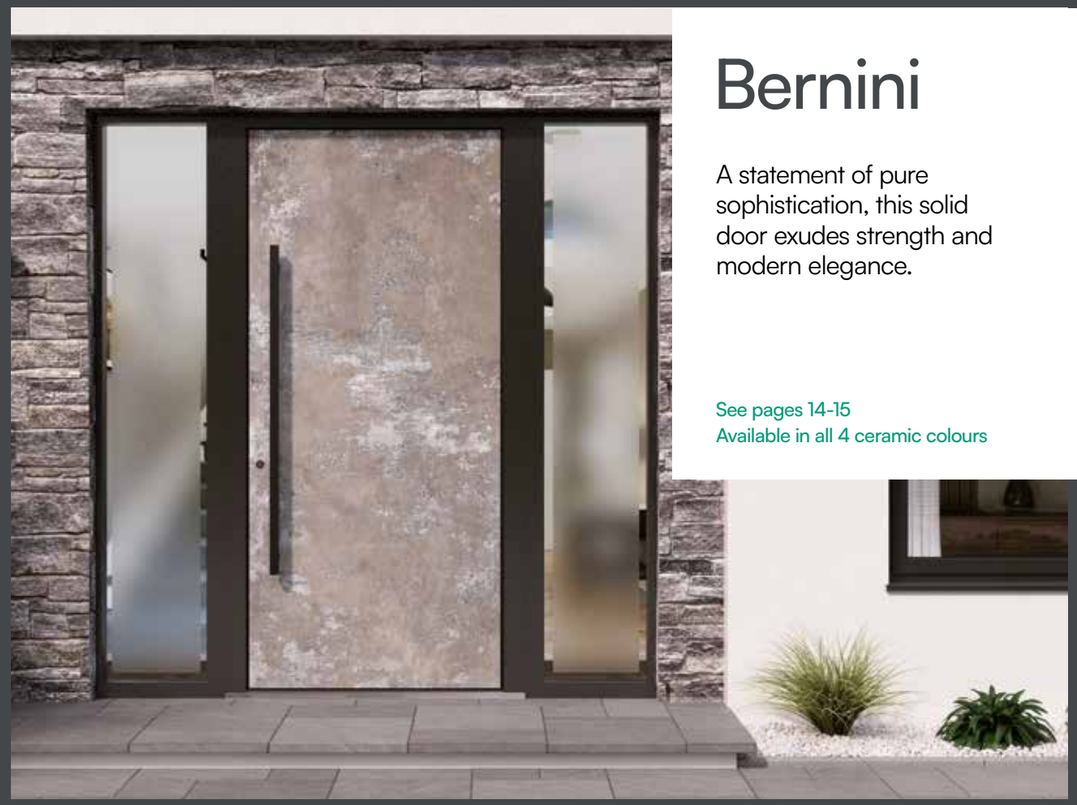
Choose from 3 distinctive door styles, each designed to complement different tastes and architectural styles. Whether bold, modern, or timeless, every option delivers the signature performance of Kärben.

Angelo

A bold expression of contemporary design, this glazed door features a central glass panel that invites light in, available with or without integrated LEDs.

See pages 16-23
Available in all 4 ceramic colours

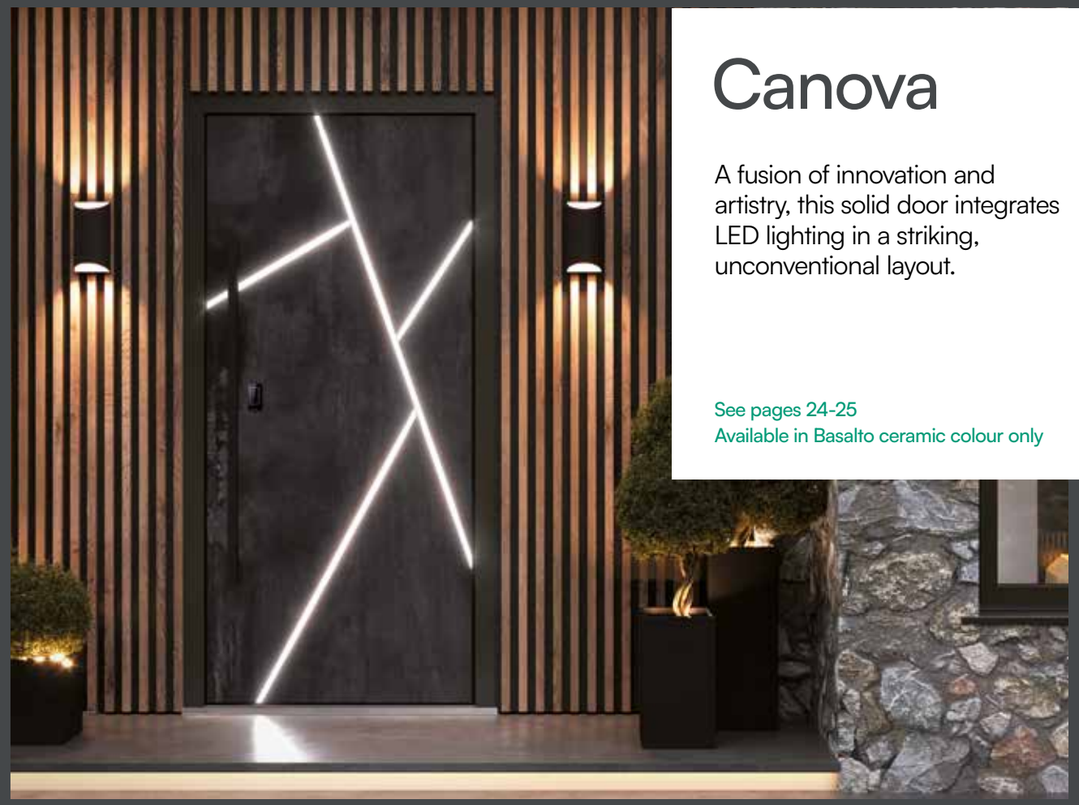




Bernini

A statement of pure sophistication, this solid door exudes strength and modern elegance.

See pages 14-15
Available in all 4 ceramic colours



Canova

A fusion of innovation and artistry, this solid door integrates LED lighting in a striking, unconventional layout.

See pages 24-25
Available in Basalto ceramic colour only

Experience unparalleled durability, security and thermal efficiency with our hybrid aluminium doors - a unique blend of energy-efficient and thermally insulating materials, striking aesthetics and top-tier strength and security for the ultimate entrance door solution.

The Kärben collection sets a new standard of performance, featuring thermally broken aluminium frames with Thermafill® technology, a carbon fibre-reinforced fiberglass door sash for strength, and an 80mm Thermafill® core for superior insulation. It surpasses rigorous weather conditions with a double-rebated construction and 7 layers of interwoven fibreglass for enhanced strength and durability. The high-security aluminium mesh embedded in the Thermafill® core and high performing hardware are standard, ensuring top-notch high security.

High Security

Insulated aluminium technology

Triple Glazed no extra cost

Super insulated

Exclusive door designs

Key Features

Thermafill® core for top performing energy efficiency and security.

High strength, 7 layered, interwoven fibreglass or Italian porcelain ceramic bonded to a **Thermafill®** core framed by a super strong pultruded profile reinforced with carbon fibre and steel.

Full frame threshold (MDS70 also available).

Automatic lock.

Quadruple and triple sealed glass units, 60mm, 65mm or 68mm depending on door style.

80mm door set.

Full Sidelights available, triple glazed as standard.

4 Kärben hinges on each door.

Double rebate flush fit system.

High strength 80mm flush aluminium frame.

Carbon Fibre known for its exceptional strength to weight ratio and durability enhances the structural integrity of the door virtually eliminating any potential for deformation or warping.

Canova in Basalto with Black 1200mm Square Bar Handle, LEDs and Key Pad

DOOR STYLE:

Canova

CERAMIC COLOUR:

Basalto

DOOR CODE:

SK2-CL

A fusion of innovation and artistry, this solid door integrates LED lighting in a striking, unconventional layout. The ceramic finish retains its modern elegance, while the illuminated design adds a bold, unique twist. A door that captivates, day or night.

Canova is only available in Basalto with LEDs

a look that redefines

A perfect fusion of natural beauty and cutting-edge craftsmanship, our Italian porcelain ceramic finish transforms each door into a masterpiece. Inspired by organic textures, it brings depth, sophistication, and a truly unique aesthetic to your entrance.

Available in striking Ferro Rust, Basalto, Nebbia, and Bianco Opale, each colour enhances the intricate ceramic pattern, creating a surface that feels as refined as it looks. More than just visually stunning, this finish is exceptionally durable, resistant to scratches, weathering, and daily wear, ensuring your door remains effortlessly elegant for years to come.

Fingerprint Electronic Lock

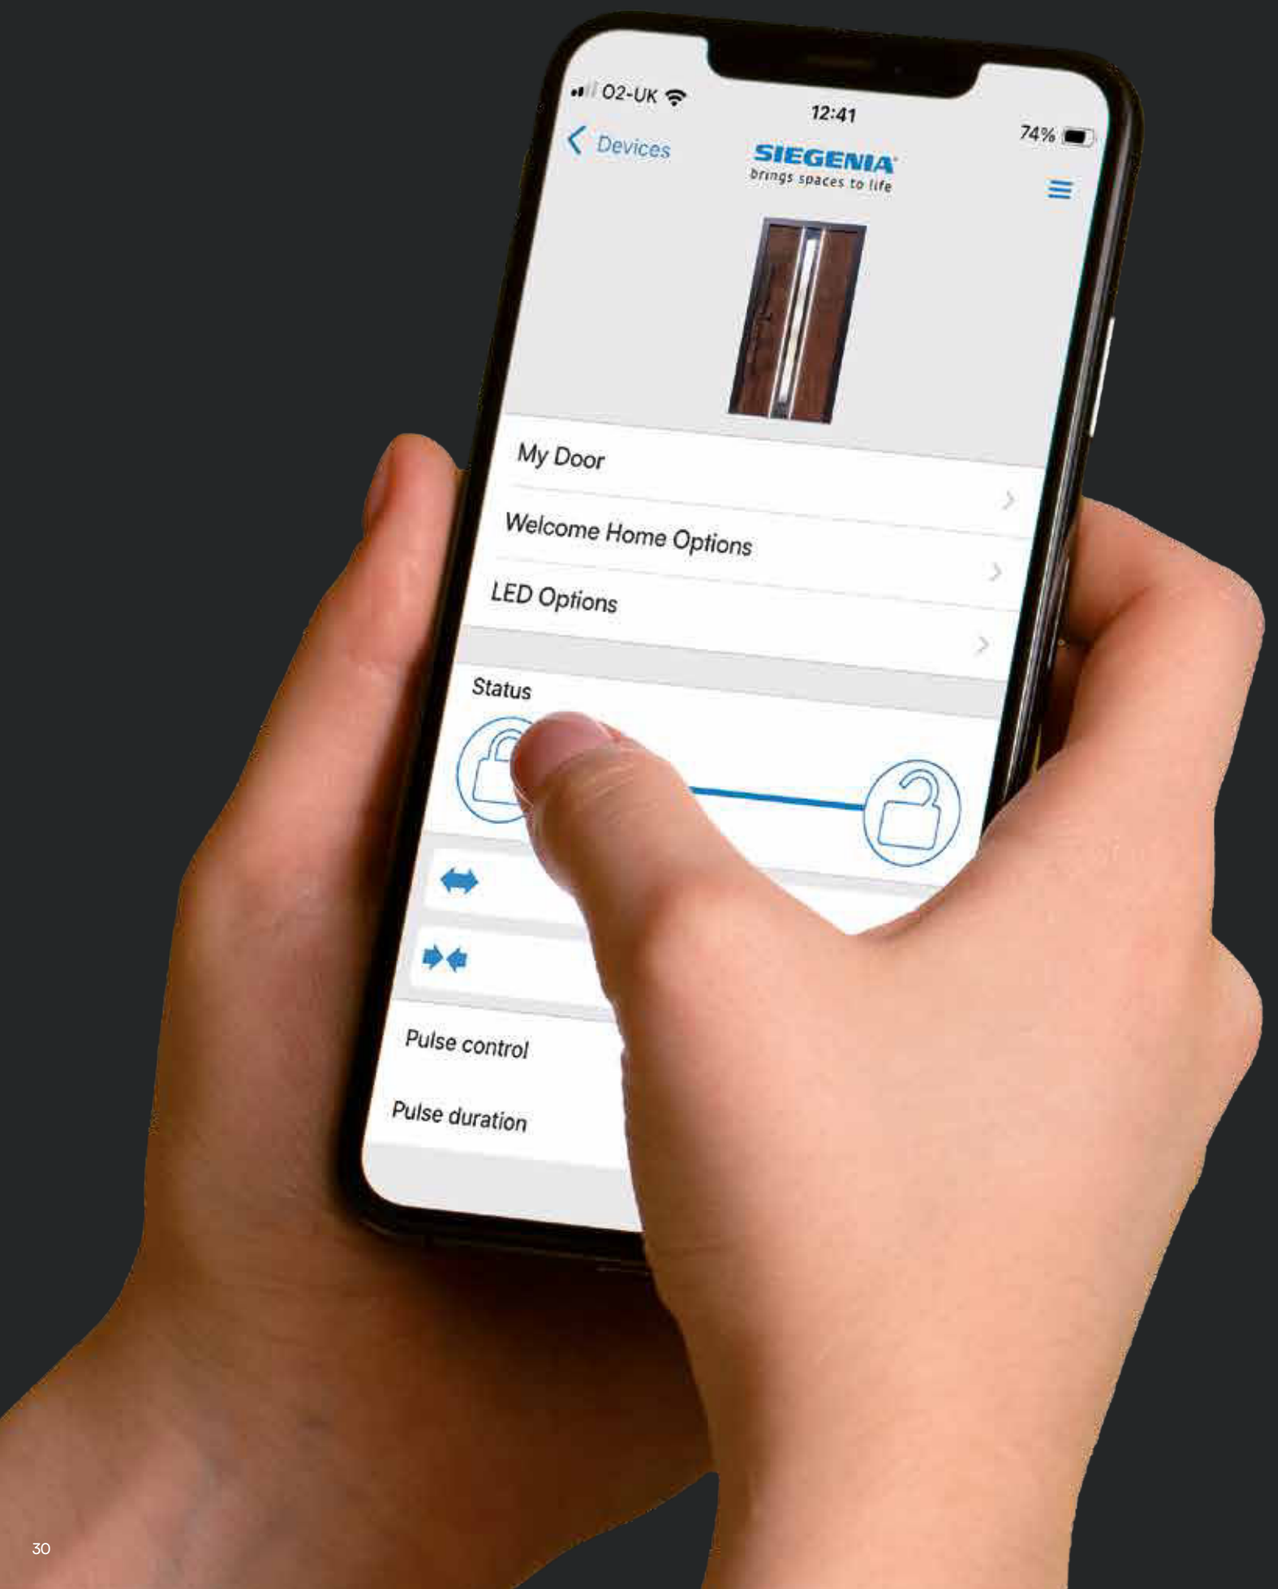
smart, secure and effortless

Experience the perfect balance of security and convenience with our state-of-the-art electronic locks. Engineered in Germany by Siegenia, world leaders of automatic, electronic and biometric high security lock systems, they offer high-security protection while ensuring effortless access to your home.

Forget fumbling for keys, keyless entry lets you unlock your door with ease, whether your hands are full or you're on the move. Take it further with automatic opening for a seamless welcome, or choose fingerprint scanning for instant, personalised access. Controlled via a smartphone app, these locks integrate cutting-edge technology with Secured by Design certification for peace of mind. For those who prefer a traditional touch, every door still includes a key and deadlock option, ensuring flexibility without compromising security.

Key Fob Electronic Lock

Key Pad Electronic Lock



smart comfort, all in one place

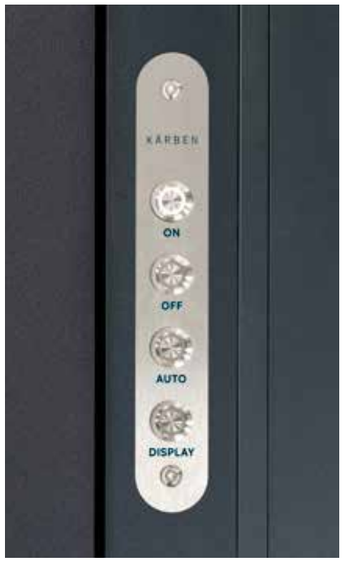
The SIEGENIA Comfort App puts the Kärben door completely under your control. With a quick check on your phone, you can confirm your door is locked, lock it remotely, or unlock it for trusted visitors.

As you approach, the door can even auto unlock, no keys needed when your hands are full of shopping or rushing with the kids. The app also allows you to activate a welcome home lighting feature, turning on the built-in LEDs as you arrive. Simple to set up and effortless to use, it blends smart convenience with everyday reassurance, making your entrance feel secure, seamless, and beautifully connected to the way you live.

illuminating innovation

More than just a door, it's a statement. Our integrated LED lighting creates a striking, unique aesthetic that turns heads and sets your home apart. With a design unlike anything else on the market, these doors bring a bold, modern elegance that's truly one of a kind.

But it's not just about looks. When in AUTO mode the intelligent lighting welcomes you home, automatically switching on as you approach, blending beauty with smart functionality. Designed for longevity, the LEDs are built to last, but in the rare event of failure, they can be easily replaced, ensuring your door continues to shine.



Discreetly positioned on the internal frame, the intuitive **Control Panel** offers four modes: On, Off, Automatic (sensor-activated), & Display, a dynamic, looping light show.

A hidden **Advanced LED Motion Sensor** embedded within the door detects with precision, triggering the LED lights to gently illuminate as someone approaches, combining subtlety with smart security.

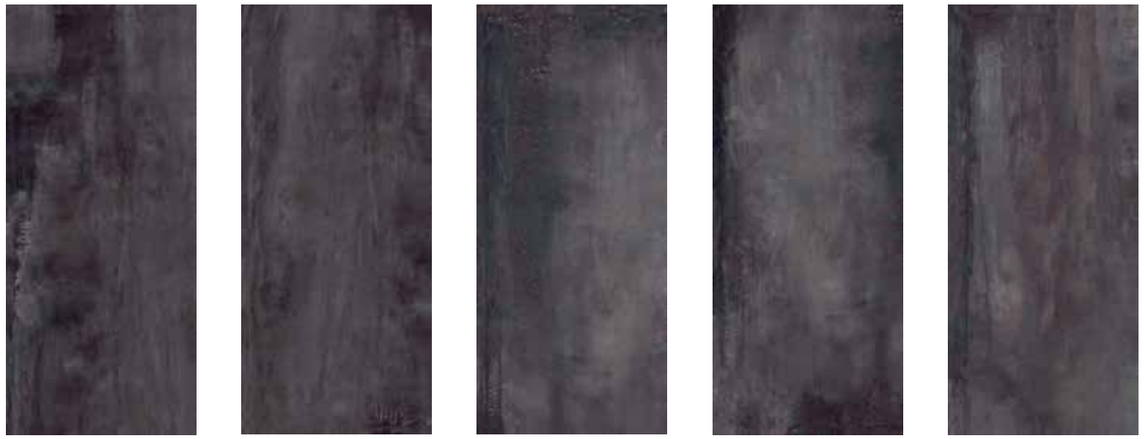
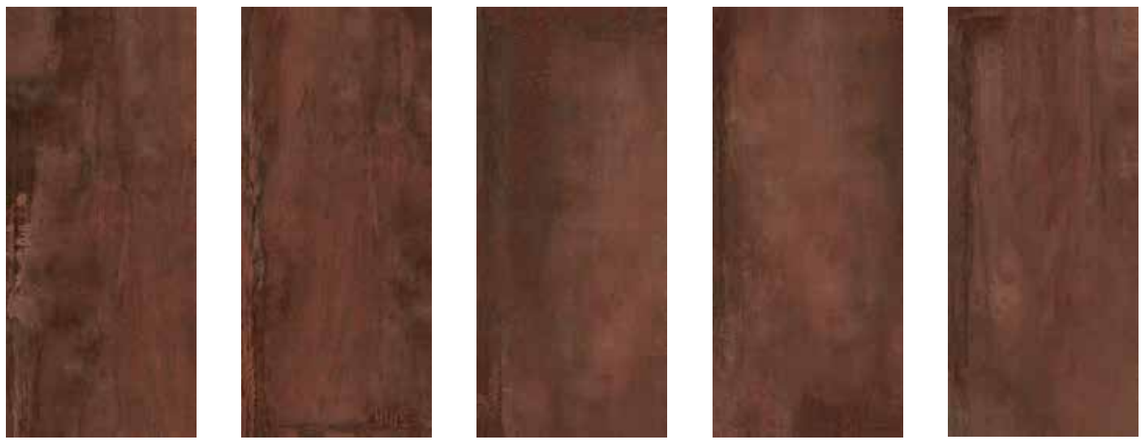
External Door Sash Finishes

Basalto

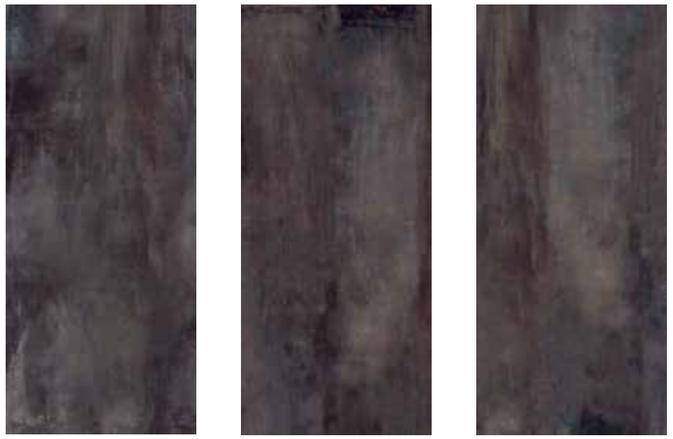


Ferro Rust



Nebbia

Bianco Opale



The ceramic tile on the exterior of SilkCeramic doors is made from natural materials, meaning your door could be any one of these finishes. Like ceramic tiles or stone, natural markings, tonal variations, and patterns will occur that cannot be controlled, so the finish you receive will be entirely random and may look like one of the images shown, which are for illustration purposes only. You cannot select or predetermine which finish you recieve. Lines or shading that may appear like cracks are part of the natural design, and over time fine hairlines may also develop even after installation, these are naturally occurring characteristics and are not considered defects.
